

CLASS TECHNOLOGIES DIGITAL ACCESSIBILITY STATEMENT

OUR POLICY AND COMMITMENT

At Class Technologies, we are committed to accessibility, diversity, and inclusion. As part of that commitment, we are making efforts to ensure that Class Technologies' digital properties are accessible to all individuals, regardless of ability. In doing so, Class Technologies has a goal to comply with applicable accessibility standards included in the W3C's WCAG 2.1 AA guidelines.

DIGITAL ACCESSIBILITY STATEMENT

We are working to ensure our websites and online services are accessible for all and are committed to following the W3C [Web Content Accessibility Guidelines](#) and other applicable accessibility laws.

To accomplish this, we have [partnered with Level Access](#) to leverage their technology platform and 25 years of experience to achieve and sustain conformance to accessibility standards. Their accessibility technology platform is used to evaluate our digital properties in accordance with best practices and is supported by a diverse team of accessibility professionals, including users with disabilities. The platform, moreover, goes beyond minimum compliance requirements by making an [assistive CX technology application](#) available to customers who have trouble typing, gesturing, moving a mouse, or reading. The application is free to download, and it incorporates tools such as mouse and keyboard replacements, voice recognition, speech enablement, hands-free/touch-free navigation, and more.

Through this partnership, Class Technologies continues to develop our digital accessibility program and capabilities so that we are designing, developing, and testing our application for conformance to accessibility standards.

ADDITIONAL INFORMATION

Read our post on [Accessibility in the Age of Learning Online](#) for more information on our approach to accessibility at Class.

CONTACT

We want to hear from you – If you would like further information about Class Technologies' accessibility efforts, have other accessibility questions or feedback, or encounter accessibility barriers on our digital properties, please contact: support@class.com.
